

Alliance for the Advancement of Arts and Education

AAAE was founded with the belief that the arts contain the power to enrich and create a healing and uplifting environment. AAAE believes the arts are essential to the human fabric of our communities and seeks to support organizations that offer access and exposure to the wonderful world of the arts. We seek opportunities for children, students and adults of all ages to explore, create, and experience a better life through the art community.

AAAE goals are to support groups, organizations and foundations which:

- ❖ ***Nurture and promote an atmosphere in which arts and education can thrive and contribute to our society;***
- ❖ ***Spread the word about the need for arts education through families, neighbors and schools;***
- ❖ ***Encourage public and private resources for arts and education.***

AAAE's one-time membership fee is \$25.00. Premier America Credit Union will grant this fee on your behalf when you join AAAE to become a qualifying member with Premier America Credit Union. The funds will be sent to the AAAE office, and will be used to support arts and education mission.
